Number Sense and Place Value Unit Reflection

1. When you look at both your “before” and “after” assessments, what surprises you? _____

2. Look at your before and after **skip counting** pages. Use a **RED** colored pencil to show where you were on this learning target **before** and a **GREEN** colored pencil to show where you are **now**.

I can skip count by 2s, 5s, and 10s.

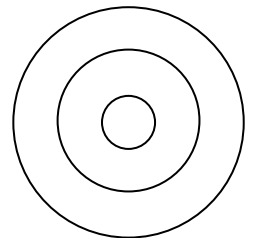

3. Now look at the mistakes (if any!) that you made on the **after** assessment. What skills do you need to continue working on? _____

Do you understand what the correct answers should be? _____

4. Show where you now are on this learning target:

I can explain what each digit of a 2-digit number represents.

Explain what this learning target means: _____
