Stop

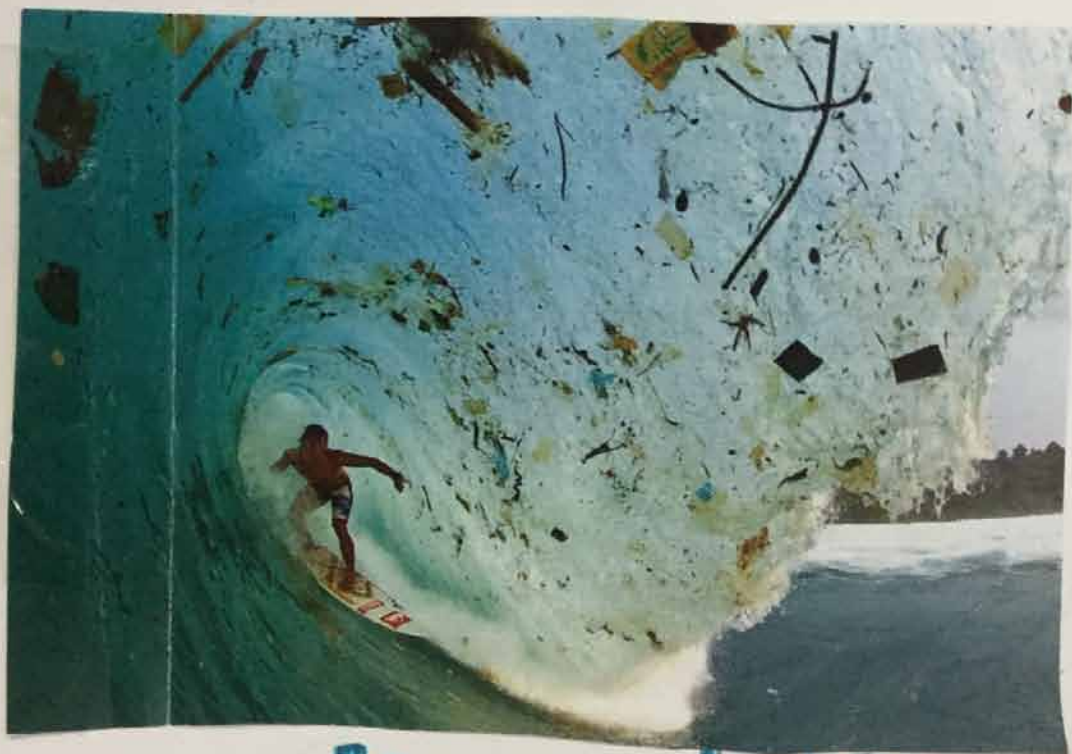

throwing

trash

in the

ocean)

Ocean trash

LOOK AT THIS
PERSON HE'S SURFING
IN...TRASH!

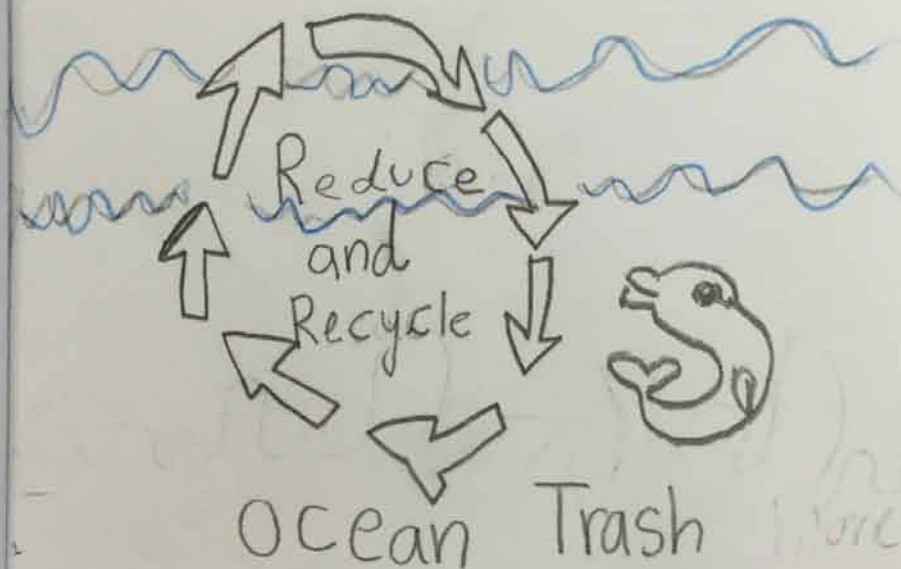

lets help this guy
surf in clean water. I think
we need to recycle more, right?

fun fact

did you know

73.9 million trash in
floating in the ocean right now

Ocean trash

73.9 million trash is floating in the ocean right now

Plastic

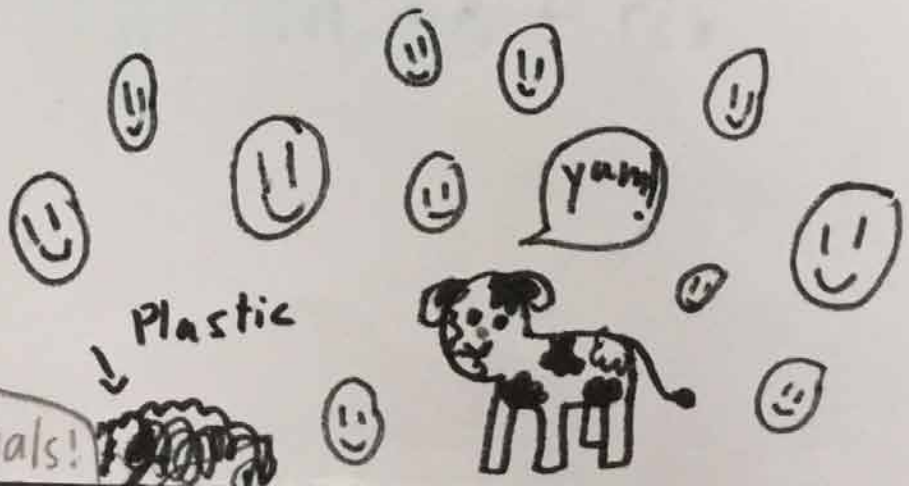

When you throw **Plastic** in the trash it ends up in the Ocean and then it ends up **there.**

fun fact

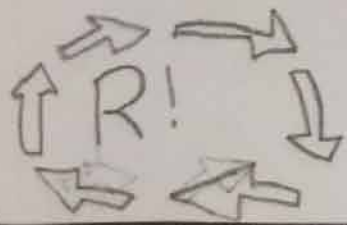

Did you know?

Plastic was actually invented to save animals!

WHY do we Care about ocean trash?

because the life cycle. First you throw it in the trash → then goes in the dirt pile → then in the ocean and that kills the animals because they eat it. It's bad but that's why we recycle! so recycle more!!

Action Plan:

Bring your own bags from home

1. Bring your own bags from home

2. Don't use straws at Starbucks

3. Recycle more

4. Using a recyclable water bottle

using a recyclable water bottle
